Ezcaray Seating introduces the Shell Screen

0

BY IZZY KINGTON ON 14TH SEPTEMBER 2020

COVID-19, SEATING, VIDEOS

EASY AND QUICK INSTALLATION

Ezcaray Seating has developed a new product, Shell Screen, that can be easily and quickly installed on seats to provide a screen between audience members. It is intended for cinemas, theatres, auditoria, classrooms, boxes, convention and conference centres and sports facilities, and can be adapted to different spaces and needs.

QUICK QUIZ

As part of the A\$273m (US\$187m/€169m) renovation of the Sydney Opera House, the famous Concert Hall is scheduled to close in early 2020 for works to improve its acoustics, theatre systems, stage and backstage areas, as well as accessibility. It's the biggest upgrade to the Concert Hall since it opened – but in which year was that?
