### FACULTY OF EDUCATION

ZARAGOZA | SPAIN

The **Faculty of Education of the University of Zaragoza** was created by the Government of Aragon, by means of Decree 129/2001, of July 3rd, which transformed the University School for Primary School Teaching of Zaragoza, **a centenary institution dedicated to the training of teachers and the cultivation of Pedagogical Sciences**. Indeed, the University School, which became a University, took over the training of male teachers since 1844 and that of female teachers since 1856.

Since February 3rd, 2014 it has been in its new location, in a building worthy of the responsibility that corresponds to teachers and professors of different educational levels: infant, primary, secondary, baccalaureate, vocational training, etc.

The project was carried out by MAAR ARQUITECTURA.

With the warmth and acoustics of wooden elements, we present our Bruselas Akad armchair, which sits on high-quality beech wood sides, with solid wood armrests and metal inner structure.

Protagonist of the assembly hall, it **provides comfort and convenience** to each space, creating a cosy atmosphere where spectators can enjoy a modern space, equipped with the latest comforts and technologies.

The combination of wood and fabric, together with excellent finishes, bring a touch of warmth and elegance to the rooms.
